

## Explore

You are a person with your own hopes for your future.  
Explore the possibilities.

## Discover

You will learn that, like everyone, there are things you can do very well.  
Discover your talents.

## Prepare

You will learn what kind of jobs the world has to offer, and learn the skills you need for those jobs.  
Prepare for the job you want.

## Belong

You will learn what it means to be a valued member of your community.  
Belong as a volunteer, an artist, and a citizen.

Artist: Harold Sakamoto

## What we offer

### Campus Learning

*Our mission is to help our clients establish meaningful and productive lives and to achieve valued roles within their communities. The Sunland Education Campus operates on a community college type of model. Each day is filled with opportunities for learning in a variety of classes taught by content experts. Our staff offer support and assistance to ensure each person has the opportunity to learn and succeed.*

### Community Life

*We place a very high emphasis on community involvement and job training. We offer MTA travel training, and are currently partnered with 40 community service organizations to offer volunteer experiences.*

### Employment/Training

**Tierra offers** challenging on-the-job training in a variety of work settings with high standards and expectations: **food service, custodial, farm maintenance, and vehicle detailing.** **Our training and volunteer programs** support a variety of skill building opportunities both on campus and in the community. Work skills are trained in a variety of **vocational classes** that highlight customer service, quality assurance and productivity. **Advanced interview** classes are offered in preparation for employment/ community lifestyle.

### Interpersonal Skills Communication

These courses equip participants to successfully express their interests and personality. The ultimate goal is to build friendships and meaningful relationships.

**Practical Communication for Everyone** – A beginning course that introduces picture, gestural and verbal communication skills.

**Social Skills for a Rich Social Life** – A course that builds verbal and nonverbal abilities to converse with and enjoy the company of others. Includes role-playing typical social situations.

**Theater Arts: Advanced Acting** – Includes song, dance, theater games, memorization and performances.

### Healthy Lifestyles

**Healthy Lifestyles** – Communicates the importance of living a healthy lifestyle, making good food choices, exercising daily and taking good care of yourself.

**Aquatics** – Year-round swim program with swim level graduated stretching and water aerobics.

**Rhythm and Music** – Provides students the opportunity to increase their knowledge and motor development through the use of various instruments and rhythm.

**Aztec Dance** – Teaches the Aztec culture through the discovery of dance, costumes, history and music.

### Elective Classes

**Art** – Classes for all levels of artists to work with a variety of materials in order to find their personal means of expression.

**Ceramics** – Introduction to the use of clay, including hand development and glazing.

**Computers** – Basics of computer and Internet usage, with use of computers for educational and communication purposes.

**Other Classes** – Gardening, Music Appreciation, Horse Grooming, Animal Care, ESL and Jewelry/Gift Making
